

DO YOUR JOB BETTER, FASTER AND MORE ECONOMICALLY

The Construction Specifications Institute
110 South Union Street, Suite 100
Alexandria, VA 22314

"I first became involved with CSI as a student at the University of Tennessee and was urged by fellow members to earn a CDT certificate. The CDT is essential for anyone in our industry. Upon graduation I immediately saw the benefits of having my CDT. I interviewed with numerous leading architecture firms around the country and always got a very positive response when they saw 'CSI, CDT' at the end of my name, it was one of the deciding factors for my current company to hire me."

Robert Husnik, CSI, CDT

"When I started out in the construction industry, I was calling on owners, architects, and engineers. I needed some help—so, I joined CSI. Through CSI I stay up-to-date on industry trends and have an opportunity to network, gain friendships and professional relationships that I can count on for anything. The value of CSI to my career can't be rated—it's an infinite number."

RosmaLeah E. Friedible, CSI
Product Representative
CSI Pittsburgh Chapter

BUILDING SUCCESS

BUILDING PEOPLE,
PROCESS & PERFORMANCE

STAY ON THE CUTTING EDGE

WHAT IS CSI?

The Construction Specifications Institute (CSI) is an international technical organization that works to organize, standardize, and communicate construction information. CSI is unique in that it facilitates an exchange of information between all participants in the construction process—a benefit not found in one-discipline organizations.

CROSS-DISCIPLINARY INTERACTION

With nearly 150 chapters and 14,000 members, CSI spans the construction industry, including specifiers, architects, engineers, contractors, owners, facility managers and building material suppliers. Our membership brings wide-ranging perspectives; news on trends, techniques and materials; and fresh ideas. In monthly chapter meetings, our members discuss the challenges of construction in their regions and neighborhoods, foster business opportunities in their communities and sharpen leadership skills.

HOW CAN CSI HELP YOUR BUSINESS?

By supporting CSI membership for your employees, your company will:
Get an edge on the competition • Gain exposure to new business opportunities before they even hit the market • Increase your company's visibility • Save money by building it right the first time!

Benefits of CSI Membership to Your Employee: Opportunity to be up-to-date on the latest trends in building and design • Earn CEU and LU credits and increase technical knowledge through professional development programs • Cultivate valuable business contacts • Develop leadership skills (organization, management, communication, budgeting) through chapter involvement.

WHY SHOULD I JOIN CSI?

DISCOUNTS

Save! Members receive discounts and special rates on CSI's Professional Development Programs, education registrations, publications and special partner programs.

NETWORKING OPPORTUNITIES

Develop valuable contacts cross-industry at local chapter meetings, CSI's annual convention, and other events.

STANDARDS & FORMATS

Do your job better and faster with clear, concise documentation using CSI's standards and formats — including: The Project Resource Manual (PRM), MasterFormat™, SectionFormat™, PageFormat™, UniFormat™, GreenFormat™, National CAD Standard® (NCS), and OmniClass™.

EDUCATION

Increase technical knowledge through on-demand online courses, webinars and other programs at the chapter, region and national level.

CERTIFICATION

Advance your career by attaining a Construction Document Technologist (CDT) Certificate or one of the advanced CSI certifications: Certified Construction Contract Administrator (CCCA), Certified Construction Product Representative (CCPR), or Certified Construction Specifier (CCS).

SUBSCRIPTIONS/INDUSTRY UPDATES

Stay on the cutting edge with CSI publications including The Construction Specifier, CSI NewsBrief and CSI Weekly.

"It wasn't until I joined CSI that I really started understanding building materials, construction technology, and the process of getting something built. Every successful building is the result of a team effort. CSI is where I get to know my teammates."

Daniel Hargreaves, RAS, CSI, CDT
Architect
CSI, Dallas Chapter
